ABOUT ME

An ambitious Software Engineer trying to expand my skill set through targeted mentorship and challenging projects. Problem solver and strong communicator eager to prove my value and talent at an emerging company. I am so delighted to work in a team to get experience from my teammates.

EXPERIENCE

End-of-Study Internship at NEOLedge Zarzis Station | Vue.js .Net Entity Framework Spring Boot SQL Server DSS Framework Azure Devops

02/2022-06/2022

Zarzis, Tunisia

- Build a Signature platform using electronic signature formats in the European Union XAdES and PAdES. The project is composed of a handy UI developed with Vue.js. In the back side two RESTful API using Spring boot and .Net. In this project I used Microsoft SQL Server as a Database manager.

Internship at Coding Way | React Native

07/2021-09/2021

Tunis, Tunisia

- Build a Restaurant App using React Native. The app is composed of a QR code scanner to give the client access to the menu to order his command.

PROJECT

E-Commerce Web Application | Spring Boot Angular PostgreSQL Docker

10/2021

Gabes, Tunisia

- A friendly UI using Angular. Back-End with Spring Boot delivering a RESTful API with CRUD methods from the PostgreSQL Database. Test the API with POSTMAN. Dockerize the Web Application. Web Service architecture.

Stock Management Web Application | Spring Data MySQL Ajax JSP

09/2020

Gabes, Tunisia

- In this project I used Spring Data to build a Web Application managing the stock with JSP interface. MVC Design Pattern Architecture.

Forssa E-Commerce App :End of The Year Project II | Ionic Firebase

06/2021

Gabes, Tunisia

- Forssa is an Buy and Sell App who facilitate the contact between users. Forssa is developed with IONIC and Firebase.
